Subject: Seeker-Ram Release

I have created a mailing list "seeker-ram@quake.think.com" for
suggestions, bug reports and questions on Seeker-Ram software.

Could someone add an alias on the hq/think.com side so that mail to
seeker-ram@think.com will get to this also? Or let me know if it should
be the opposite direction?

I added this line to the README (/prog/wais/latest/seeker/README on
quake) file...."send bug reports, suggestions, questions to
seeker-ram@quake.think.com"

So far, I am the only one on the list....please add yourself, else let
me know, and i'll add you...

thanks,
barbara
